## Autodesk Construction Cloud Learning Center

Learn how to use Autodesk Construction Cloud to connect workflows, teams, and data at every stage of construction to reduce risk, maximize efficiency, and increase profits.

### On-Demand Courses and Live Training

Take advantage of a variety of resources and earn certificates.

**Learn and Upskill**  
Dive in to learn about Autodesk's construction products and leverage your knowledge to improve job function and efficiency.

**Check Your Knowledge**  
Prove that you know precisely how and when to use Autodesk Construction Cloud products.

**Earn Certificates**  
Complete self-paced courses to earn certificates and badges, demonstrating your familiarity with the industry.

The screenshot shows the Autodesk Docs Learning Center interface. At the top, there is a navigation bar with the Autodesk Construction Cloud logo and links for Home, Learn, Training, and Contact Us. The main heading is "Autodesk Docs" with a sub-heading: "Learn how to organize, distribute, and share drawings, models, and documents across the project lifecycle with a single document management platform." Below this, there are six video thumbnails arranged in a 2x3 grid. Each thumbnail includes the Autodesk Docs logo, a title, a brief description, and the duration. The first row contains: "Getting Started in Autodesk Docs" (8 min), "Files in Docs" (38 min), and "Issues in Docs" (36 min). The second row contains three more thumbnails with icons but no text labels. A "REGISTER" badge is visible on the top right of the "Files in Docs" thumbnail.

Thumbnail Title	Duration
Getting Started in Autodesk Docs	8 min
Files in Docs	38 min
Issues in Docs	36 min
(Icon: Document with checkmark)	
(Icon: Document with minus sign)	
(Icon: Document with pencil)

### About this course

*Note: Please register to access the course content.*

Welcome to "Issues"!

In this course, we'll go over the "Issues" tool in Autodesk Docs, which allows you to track any issues, such as punch list items or trade damage, across the construction lifecycle and reference data on sheets, forms, RFIs, and throughout Autodesk Construction Cloud™.

Who should take this course?

This course is designed for both office and field teams to learn how to properly set up and create issues.

We'll cover:

- Setting up issues

### Curriculum (36 min)

- ▶ Introduction to "Issues" (2 min)
- Setting Up**
- ▶ Accessing "Issues" Settings (1 min)
- ▶ Types and Categories (3 min)
- ▶ Custom Fields (3 min)
- ▶ Permissions (4 min)
- ▶ Root Causes (2 min)
- Creating and Closing**
- ▶ Creating Issues From the "Issues" Log via Web (3 min)
- ▶ Creating Issues on Sheets via Web (3 min)
- ▶ Closing Issues via Web (2 min)
- ▶ Creating Issues From the "Issues" Log via Mobile
